

## Molded SDR26 8x8x4 Sewer-DWV Tee-Wye

Multi Fittings is pleased to announce the addition of the SDR26 8x8x4 Sewer-DWV Tee-Wye. This new Heavy Wall PVC Sewer Fitting has gasketed bells on each 8" end and a 4" DWV solvent weld hub on the branch.

The fitting allows for an easy solvent weld connection of 4" DWV sewer laterals to an 8" PVC gasket joint sewer line in new construction.

### SIZE

8" x 8" x 4"

### STANDARD

### FEATURES & BENEFITS

- Tee-wye geometry at the branch for smooth integration of lateral flow into the main line
- No adapter required for DWV pipe for sewer laterals
- Gaskets color-coded gray as is customary for Multi Fittings SDR26 Heavy Wall Fittings
- Molded using advanced PVC material formulations for high quality performance
- Meets ASTM D3034 and F1336 standards
